

Demineralised Water

Product Code: MIS003 | **Revision:** 20220311

Available Pack Sizes

Applications

A purified water that has been finely filtered and de-ionised to remove the natural salts found in many tap waters.

Recommended by Aztec Oils as suitable for the following applications

A variety of applications from dilution of water miscible products, cleaning, antifreeze/coolants etc.

Benefits

- Does not contain any anions or cations.
- Free from all soluble mineral salts.
- Low in calcium.

Typical Test Data

Appearance	Colourless liquid
Density @ 15°C (kg/m3)	1
Flash Point (°C)	Non-flammable
Kinematic Viscosity @ 40°C (mm/s ²)	1

The typical test data provided is taken from average values, there will be some variability in production and therefore do not constitute a specification.

Health, Safety & Recommendations

- A Safety Data Sheet is available for consultation at www.aztecoils.co.uk.
- Packaging should not be left exposed to elements and drums should be laid horizontally to prevent contamination.
- When disposing of the product after use, please protect the environment and comply with local regulations.

In line with our policy of continued improvement, Aztec Oils reserve the right to change specifications and availability without prior notice. This lubricant, used according to our recommendations and for its designed application, does not represent any particular risk. The information present in this technical data sheet is given in good faith, but without warranty.
